# NANO GOLD

## WHAT'S NANOPLASTY HAIR TREATMENT?

**Nanoplasty** is a comprehensive treatment based on nanotechnology and organic chemistry. It is the latest taming trend and the new alternative to chemical and keratin straightening. Proven by practice to be an effective method of hair treatment that provides a healthy appearance and last-longing effects. Spectacular results can be obtained in all types of hair, regardless of the volume and the curl formation of hair. Shiny and perfectly straight hair last for 8-12 months, hair structure is permanently straight.
